

What will determine the success of a corporation?

Cost management. Low overhead. Profitability.

It's no different if you're a banker, broker or builder. The tools you use are different but a sound fiscal strategy remains the top priority. At Valley Natural Stone we understand the unique requirements of building contractors, landscape architects and design professionals. And have created our business to provide those services nationwide, economically and efficiently.

Valley Natural Stone is the premier value-added distributor of high quality natural stone products providing cost effective solutions in the procurement, inventory management, warehousing and distribution of natural stone product both locally and nationwide.

A specialist in Architectural and Landscape stone supply throughout California, our services are tailored to support building, landscape architecture and design professionals; including wholesale and retail operations. Economically managing these services nationwide is now a reality with the addition of a national distribution network.

For a complete catalog of stone products, visit our Web site: www.valleynaturalstone.com or call to request a brochure: 209.599.2038.

Whether it's flagstone, wall stone, or natural thin stone veneers, Valley Natural Stone can deliver truckloads to trainloads, economically and efficiently!

Working together we can be a positive factor in your fiscal outlook in 2007 !

Tim Spence, President
